

# Resilient Independent Skilled Expressive

## We want our pupils to RISE

### Science Curriculum

#### **Intent**

At Manor School we recognise the importance of science in every aspect of children's daily life. We want to instil knowledge and understanding of our world through the teaching of science in our school. It will help the children develop their natural curiosity for engaging in learning about the physical environment and living organisms. In our science curriculum we want children to become enquiry based learners through explanation and scientific enquiry.

Love – Learn - Laugh
